About the Embrace Kids Foundation

The Embrace Kids Foundation assists families that have children suffering from cancer, sickle cell disease, and other blood disorders. Your donations aid education programs, emergency financial assistance, parent support groups, social services and counseling, and several other non-medical services all available to families at no cost. Collecting donations for the Heel to Heal walk/cycle fundraiser will aid in the funding for programs that improve the families' experience while their child is undergoing treatment. Overall, Embrace Kids Foundation makes it all a little better.

My family and I will be participating in this walk, and any contribution will help! All donations are 100% tax-deductible.
