

The cure for blood cancer looks exactly like you.

Join the Be The Match Registry®.

Marrow donors in your community are urgently needed to save the lives of patients with diseases like leukemia, lymphoma or sickle cell anemia. Patients are most likely to match someone who shares their ethnic background.

Tommy was diagnosed with Acute Myeloid Leukemia in April 2012 at the age of 14. After six months of treatment he achieved remission, and went home. He began high school and his life went back to normal.

In December, he learned that his disease had returned. Now Tommy is in need of a bone marrow transplant. His siblings are not close matches for him. Tommy needs an unrelated marrow donor.

Tommy is an absolutely amazing young man who is strong, determined, and hopeful for his future.

Join the registry and help Tommy and other patients in need

Marrow Donor Registry Drive, Ages 18 to 44

Date: Thursday, February 7th, 2013
