Re.: 6th Grade Immunizations

Dear Parents:

This letter is to inform you that according to New Jersey state law, all students entering 6th grade must receive the meningococcal vaccine (e.g., Menactra) as well as a sixth dose of DTap or Boostrix within two weeks of the student's 11th birthday.

Please send an updated immunization record containing documentation of your child having received these two immunizations to the school nurse's office within three weeks of your child's 11th birthday.

Thank you for your cooperation in this matter.

Respectfully,

Diane Giella, RN

Neifa Hadley, RN, MSN
